

Open Education Resources

The following teaching and learning materials are available for free in the public domain and are provided here for consideration by educators to supplement the curriculum. The resources below may be customized, modified, or combined with other materials according to their [creative commons](#) licensing.

How to choose an open textbook

1. Find textbooks by searching repositories (see examples below)
2. Review and evaluate resources (For a basal resource, click [here](#) for state guidelines)
 - a. Does the resource meet content standards?
 - b. Is the resource platform compatible for my school and/or district?
 - c. Can I use the resource as is, or do I need to edit the resource?
 - d. How will the resource be distributed to my students?
 - e. How will students and parents be trained on use of the resource?

Digital Textbooks
